Vybarvi každý tvar jinou pastelkou. Umíš
tvary správně pojmenovat?

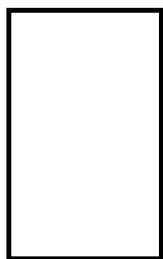

Kruh

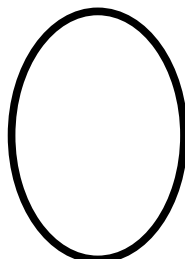

Čtverec

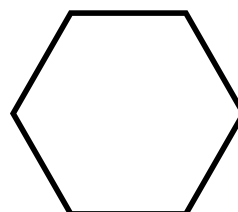

Trojúhelník

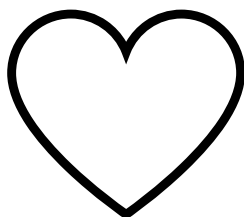

Obdélník

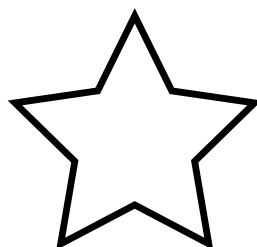

Ovál

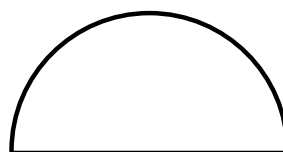

Šestiúhelník

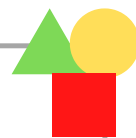

Srdce

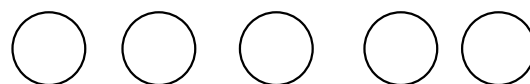

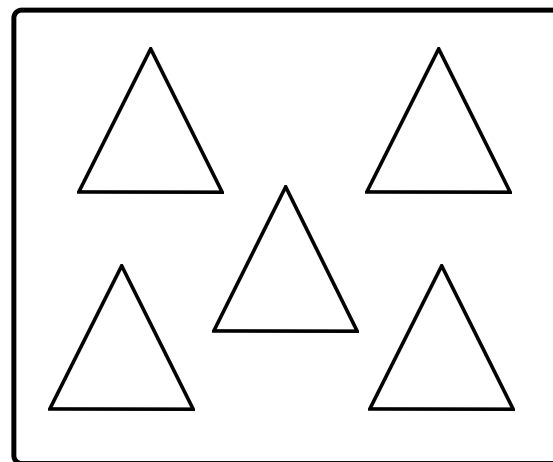

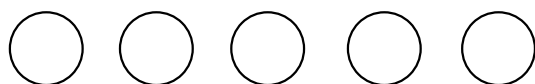

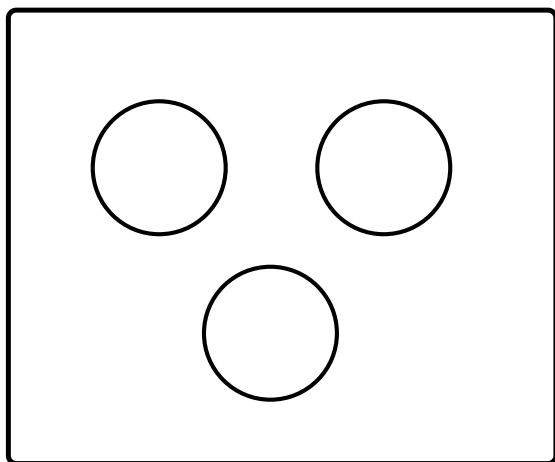

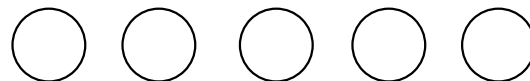

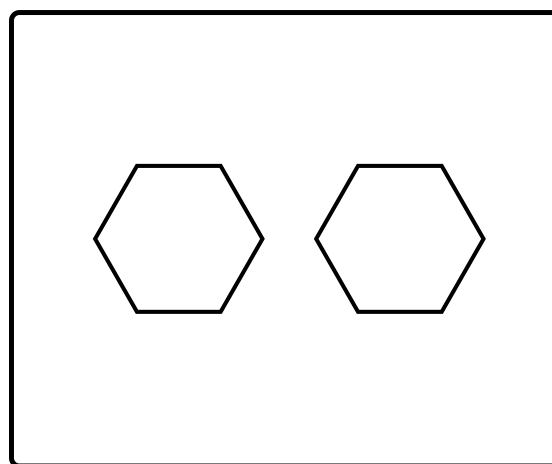

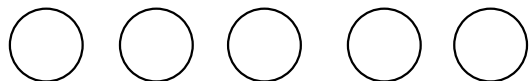

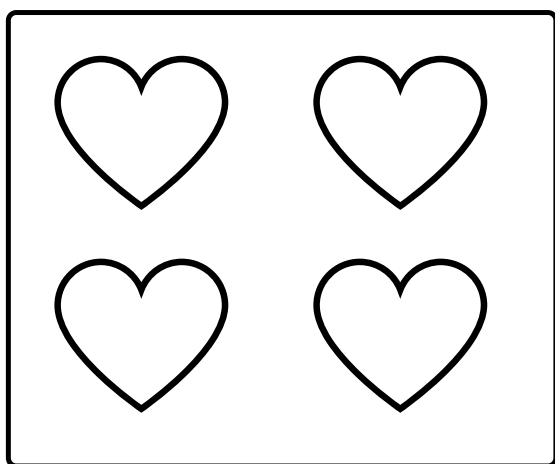

Hvězda

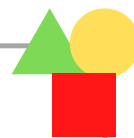

Půlkruh

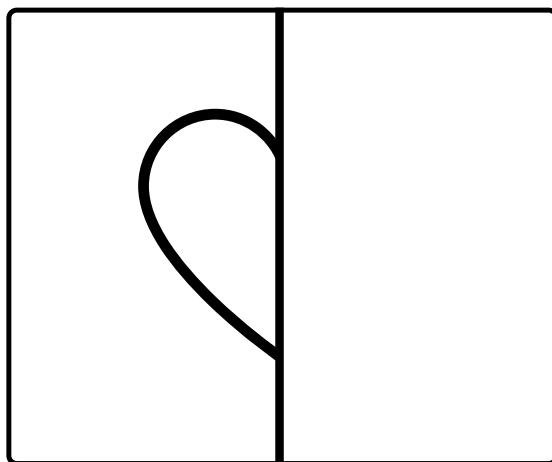

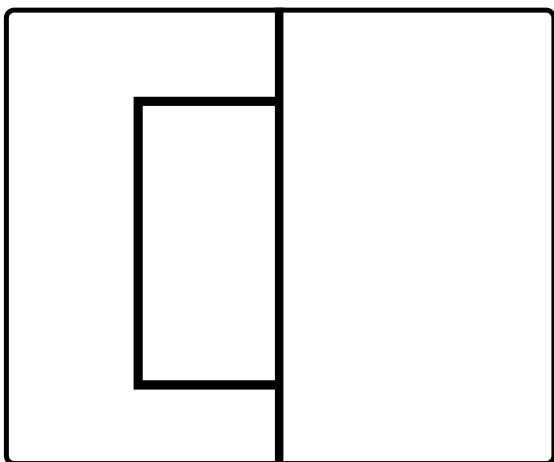

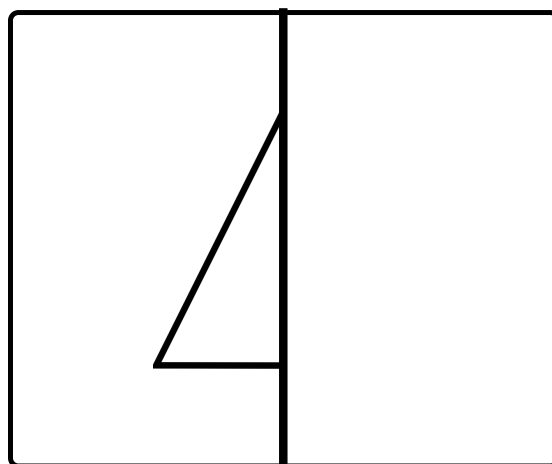

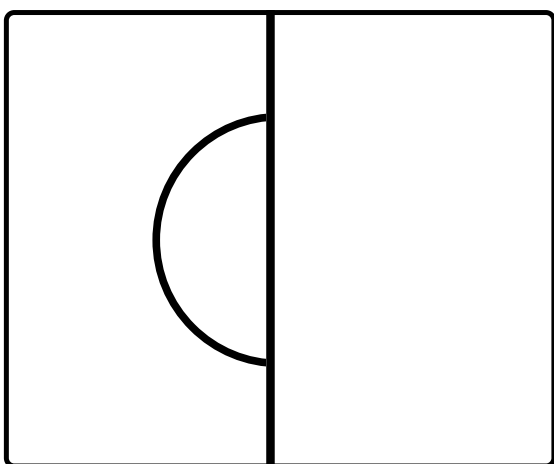

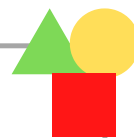

Spočítej tvary v rámečku a vybarvi stejný počet koleček.

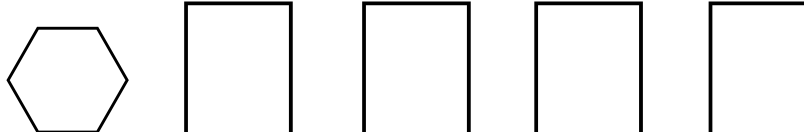

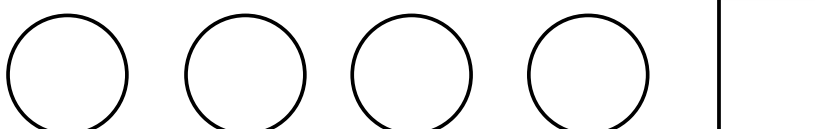

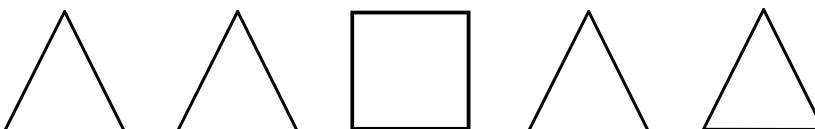

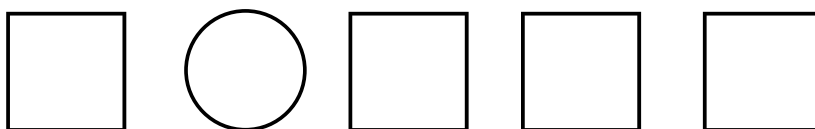

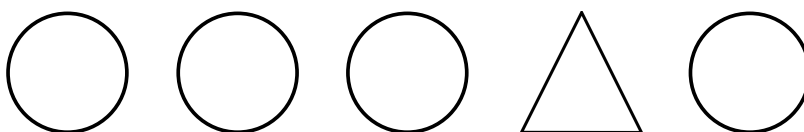

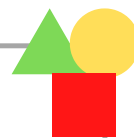

V každém rámečku dokresli druhou půlku
obrázku. Jaké tvary ti vznikly?

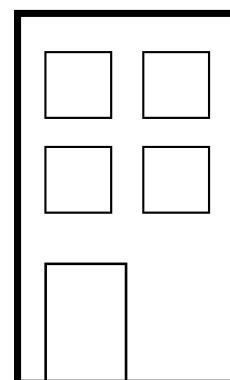

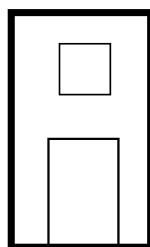

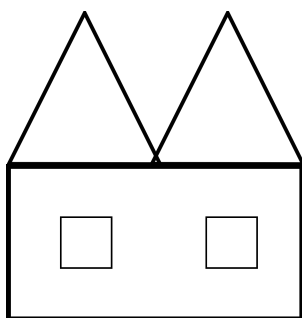

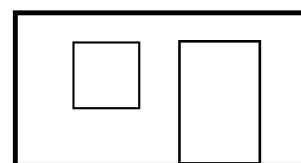

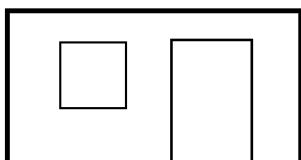

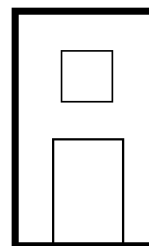

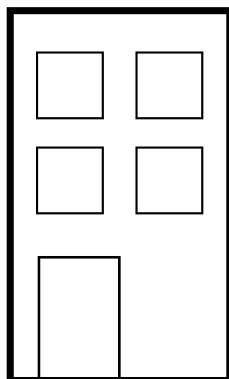

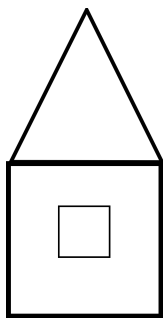

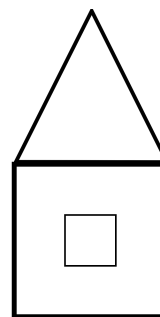

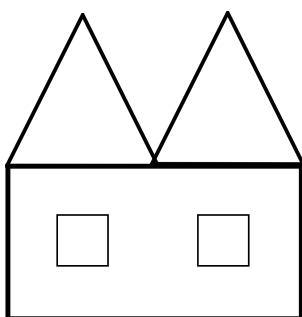

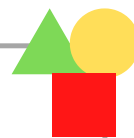

V každém rámečku vybarvi tvar, který
tam nepatří.

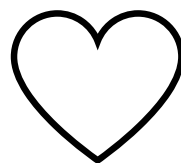

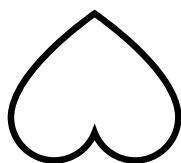

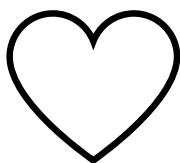

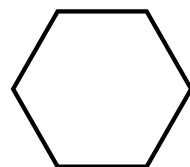

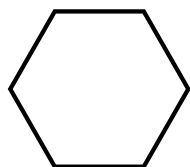

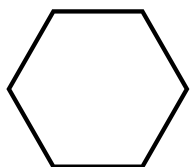

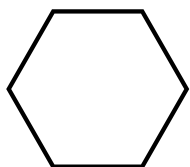

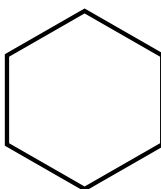

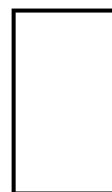

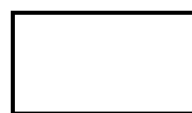

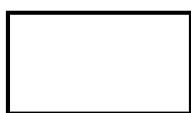

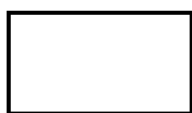

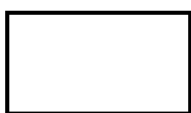

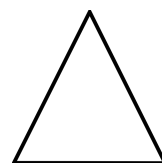

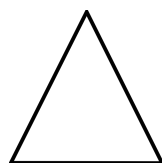

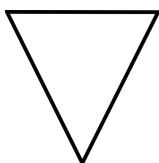

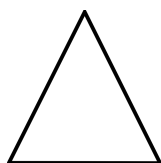

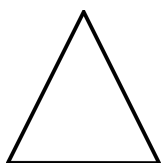

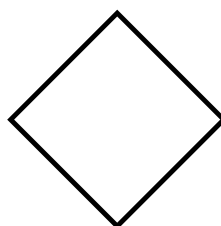

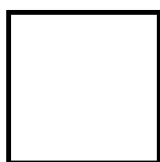

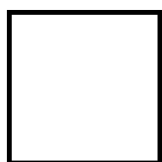

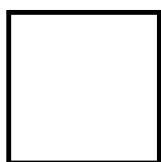

Najdi stejné dvojice domů, spoj je k sobě
čárou a vybarvi. Spočítej všechna okna,
dveře a střechy.

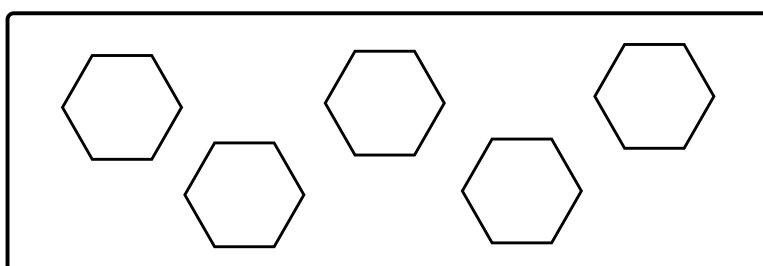

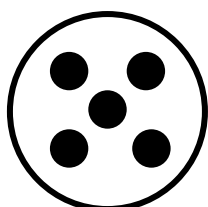

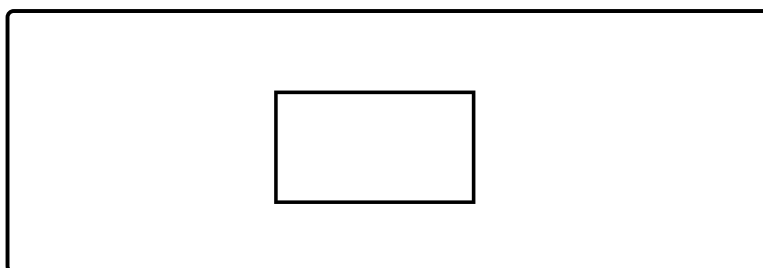

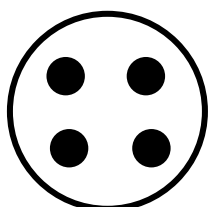

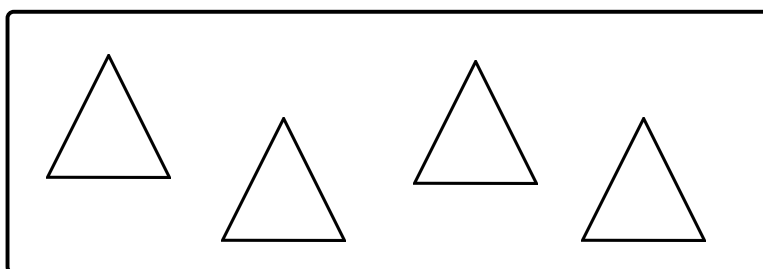

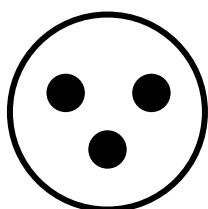

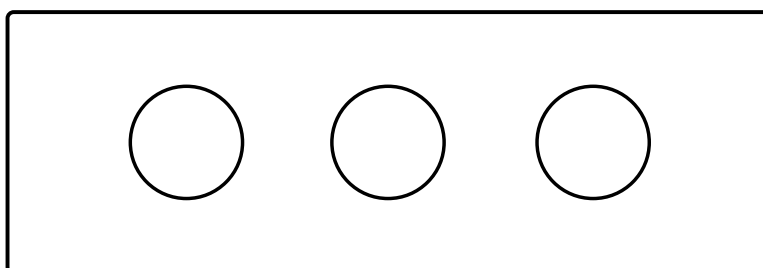

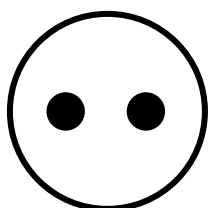

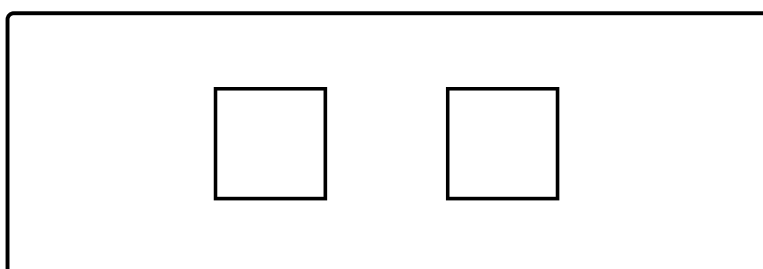

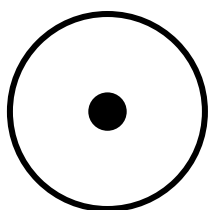

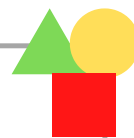

Na každém řádku najdi tvar, který je
otočený a vybarvi ho.

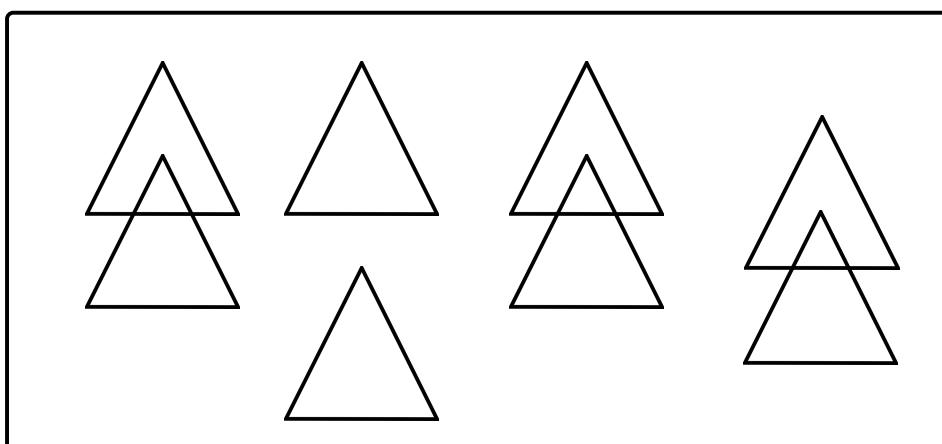

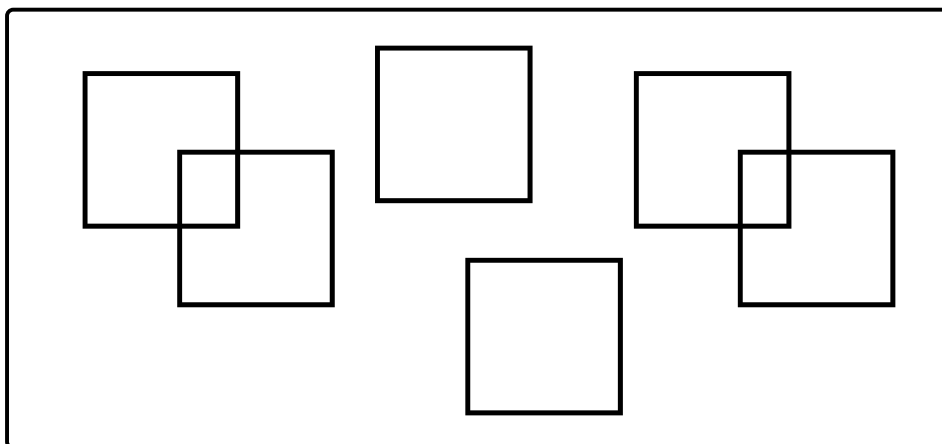

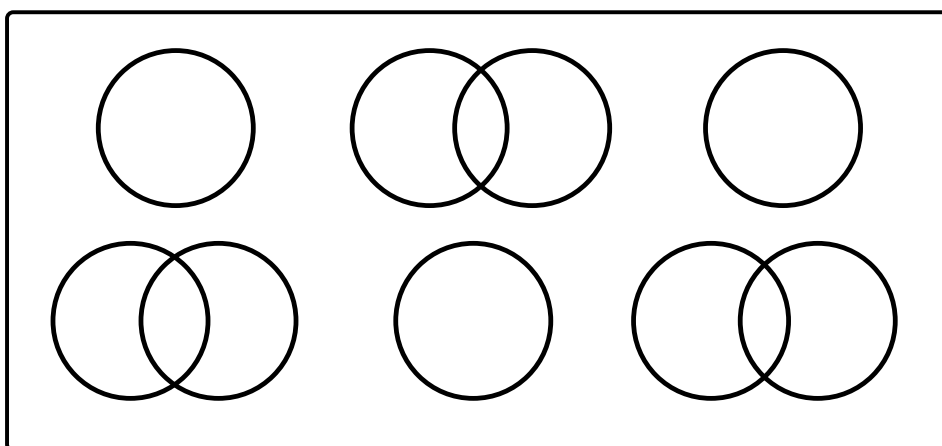

Spočítej tvary v rámečcích a spoj je se
správným počtem teček v kolečku.

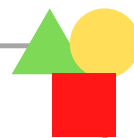

Najdi tvary, které jsou ve dvojicích.

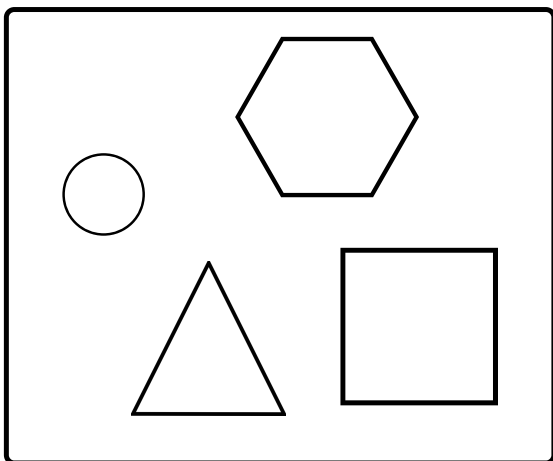

Vybarvi místo, kde jsou spojené.

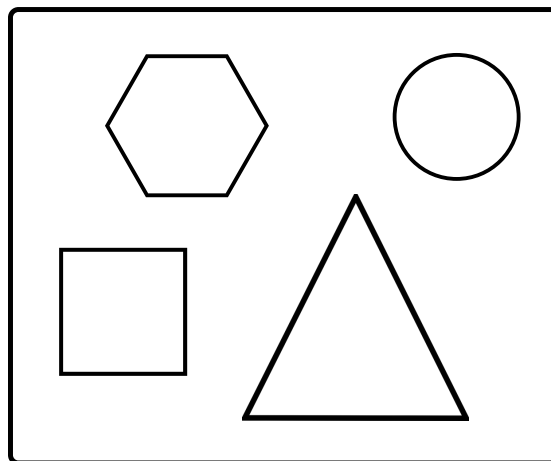

Nachystej si svoje oblíbené pastelky a vybarvi
tvary podle pokynů.

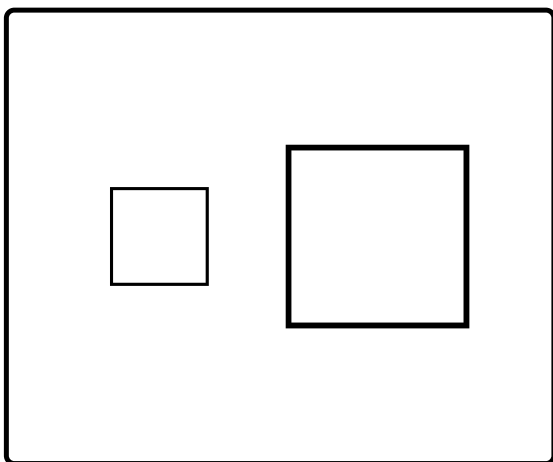

Vybarvi nejmenší tvar.

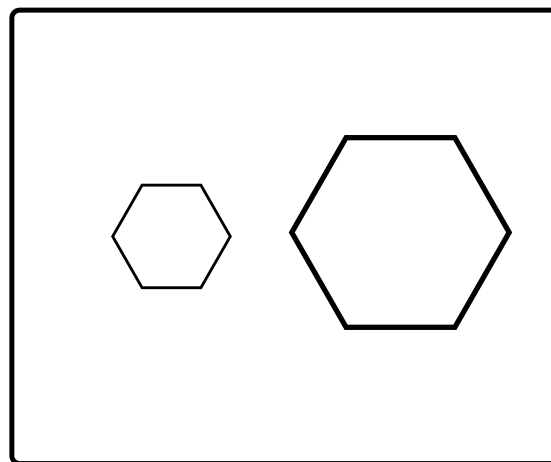

Vybarvi největší tvar.

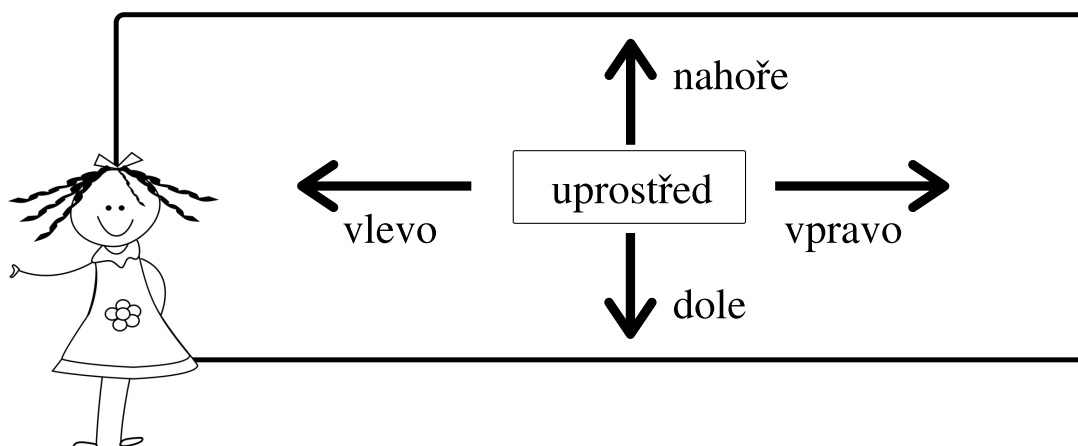

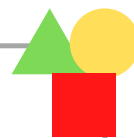

Vybarvi menší tvar.

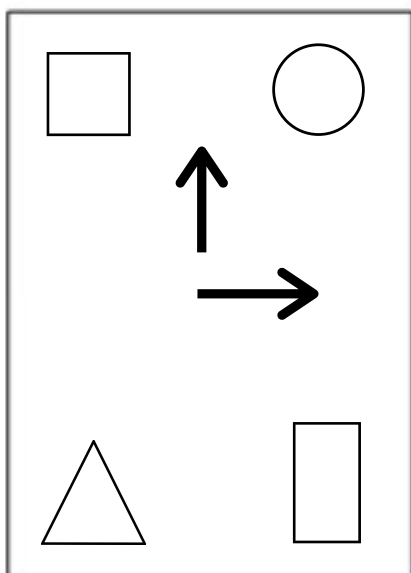

Vybarvi větší tvar.

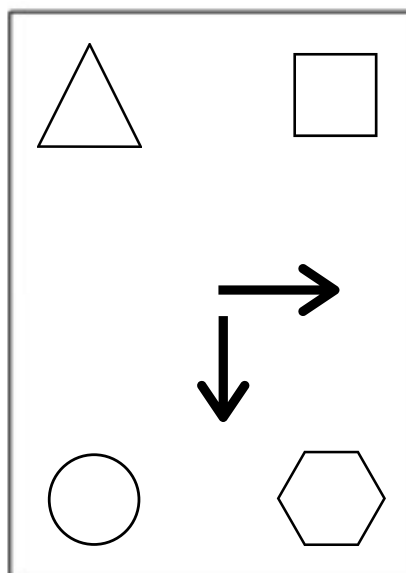

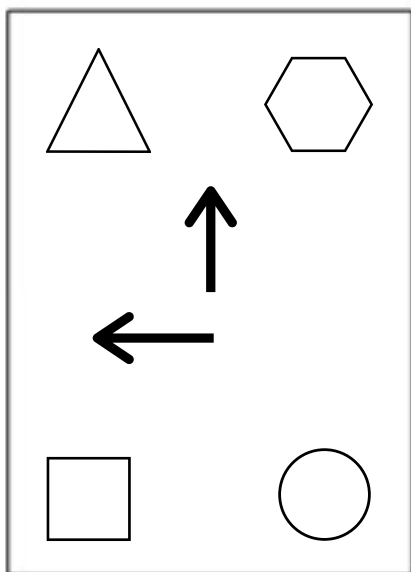

Vybarvi obrázek vpravo nahore.

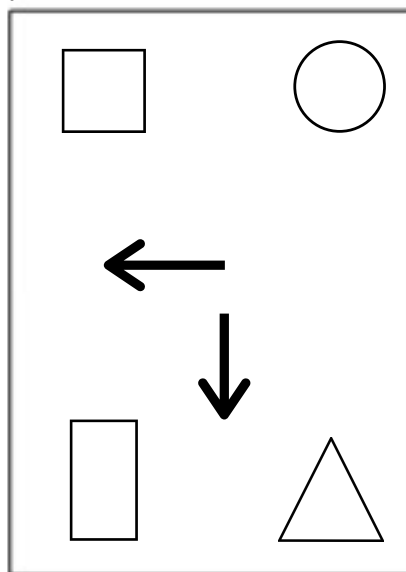

Vybarvi obrázek vpravo dole.

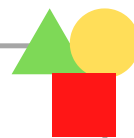

Vybarvi obrázek vlevo nahore.

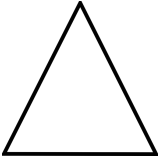

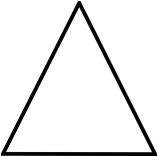

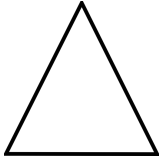

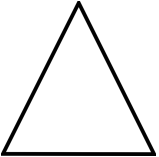

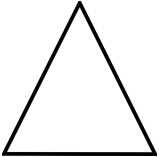

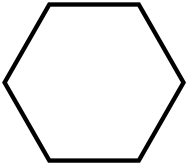

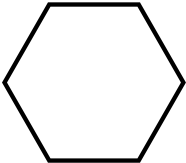

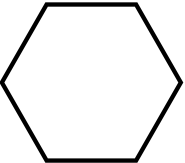

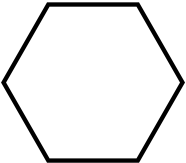

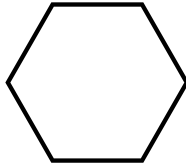

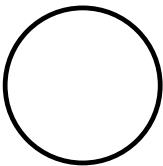

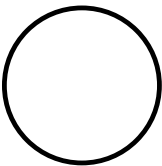

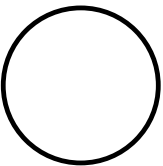

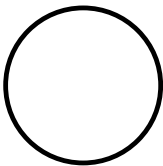

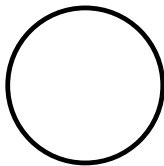

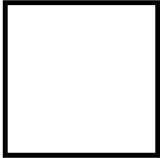

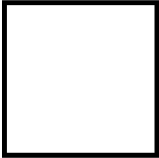

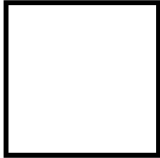

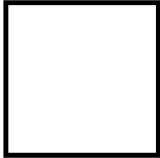

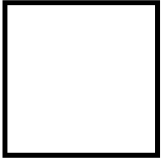

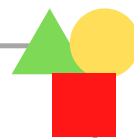

Vybarvi obrázek vlevo dole.

Na každém řádku vybarvi tolik tvarů,
kolik ukazuje číslo v rámečku.

5	    
1	    
3	    
2	    
4	    

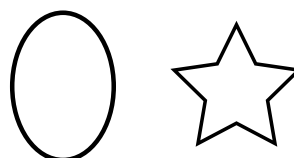

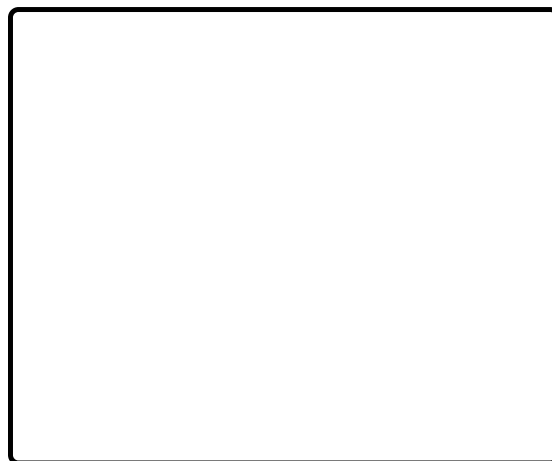

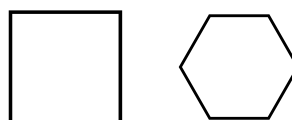

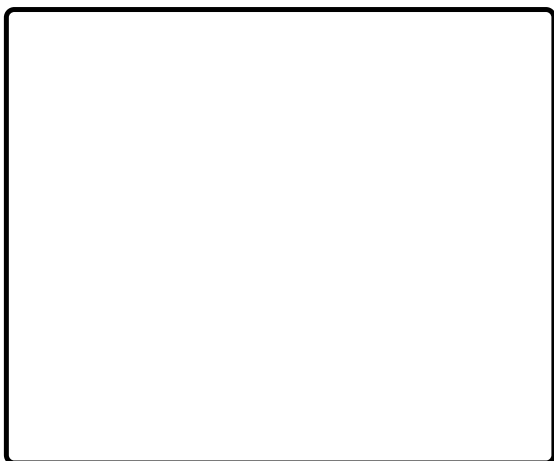

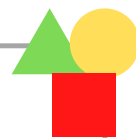

Vystřihni všechny tvary z poslední stránky a

nalep je do rámečků podle toho, jaké dva tvary

jsou nad rámečkem. Nakonec je vybarvi.

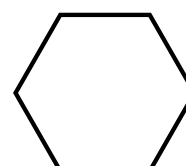

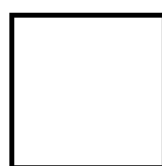

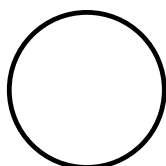

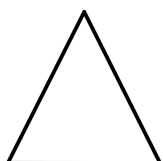

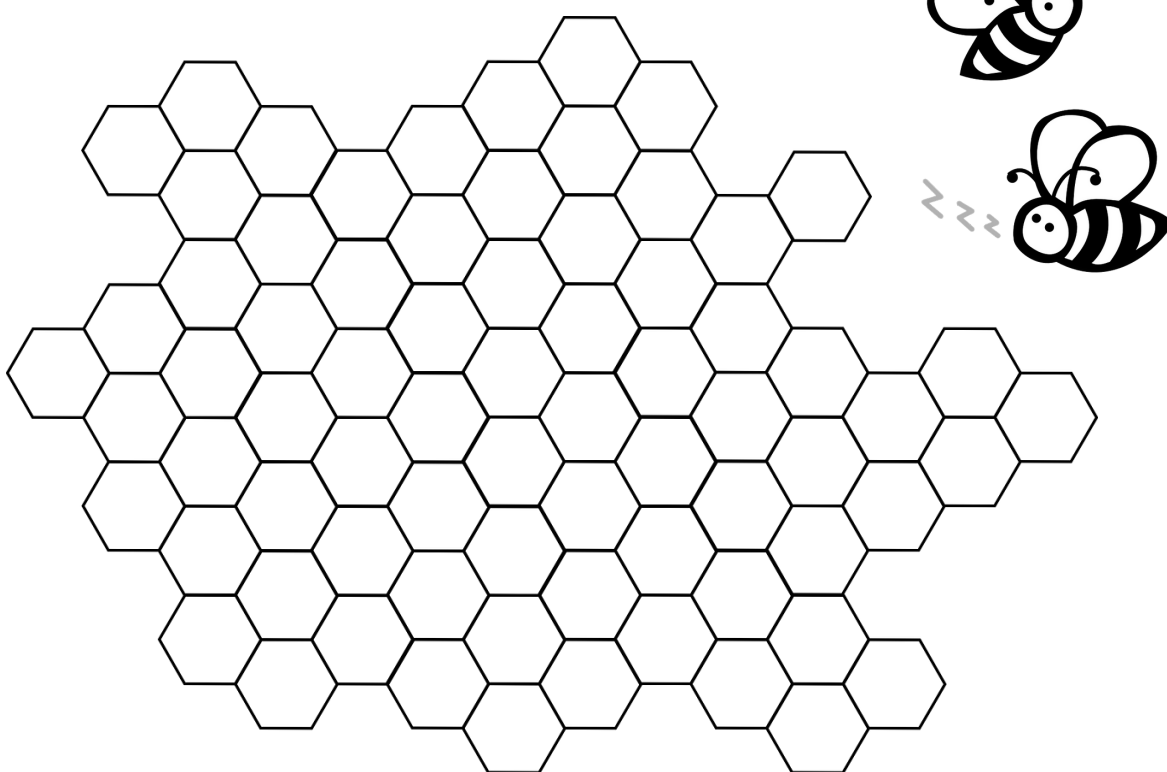

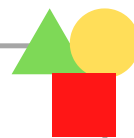

Na tento úkol ti stačí jen žlutá pastelka.

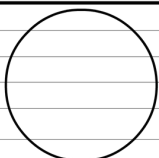

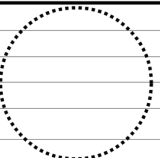

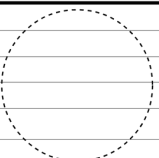

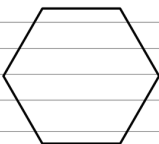

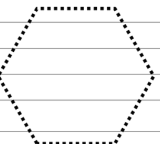

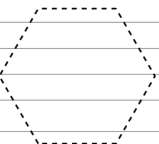

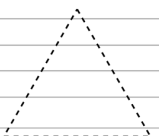

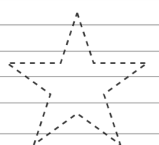

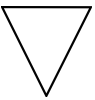

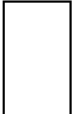

Vybarvi celý obrázek. Pod obrázkem
vybarvi tvar, ze kterého vznikly plástve.

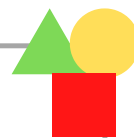

Dokresli tvary na řádku tak, jak jdou za sebou.

	
	
	

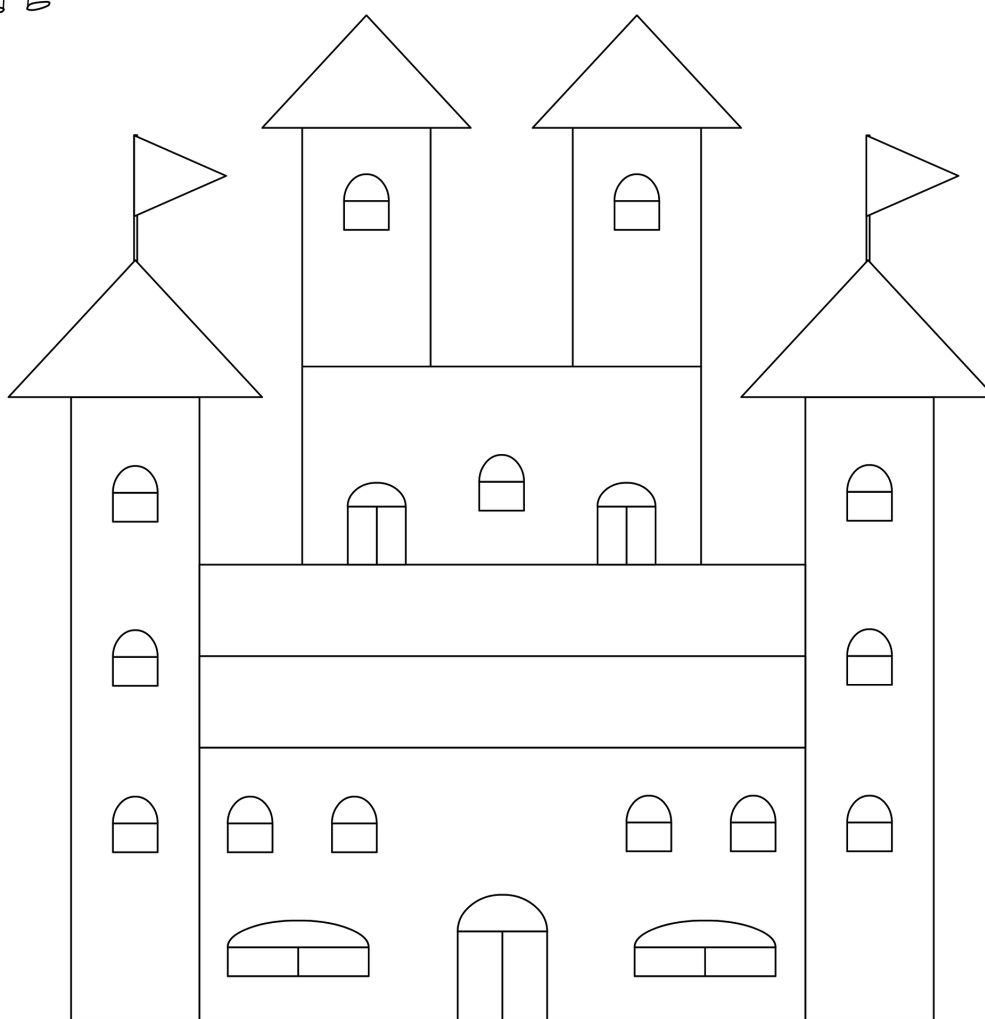

Vybarvi celý hrad. Spočítej všechny

trojúhelníky, půlkruhy a obdélníky, ze

kterých je hrad postaven.

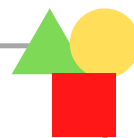

.....

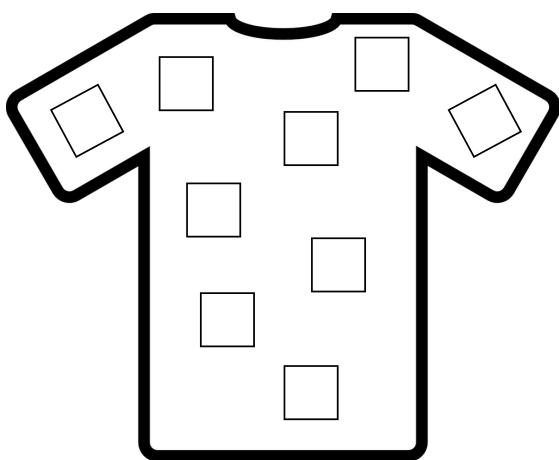

.....

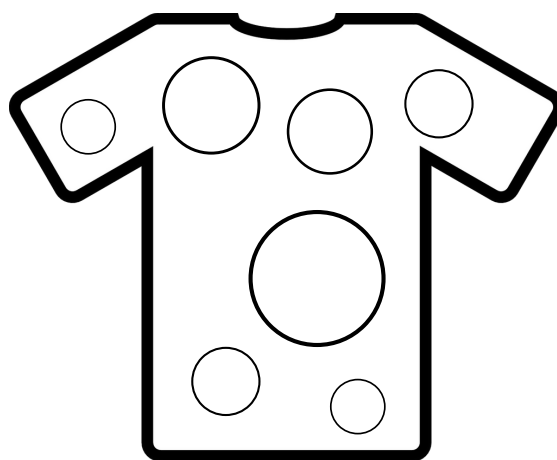

.....

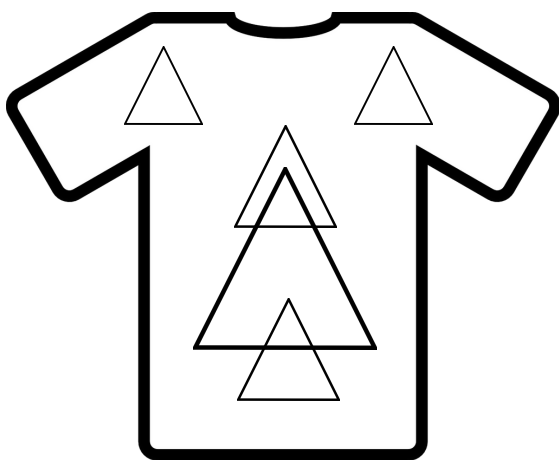

Vybarvi tvary na tričku a spočítej je. Číslo
napiš pod tričko.

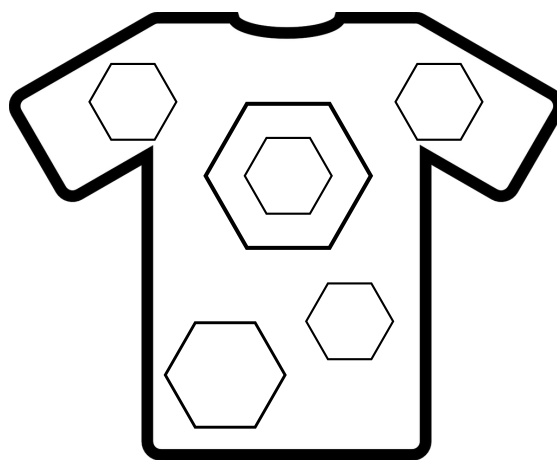

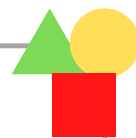

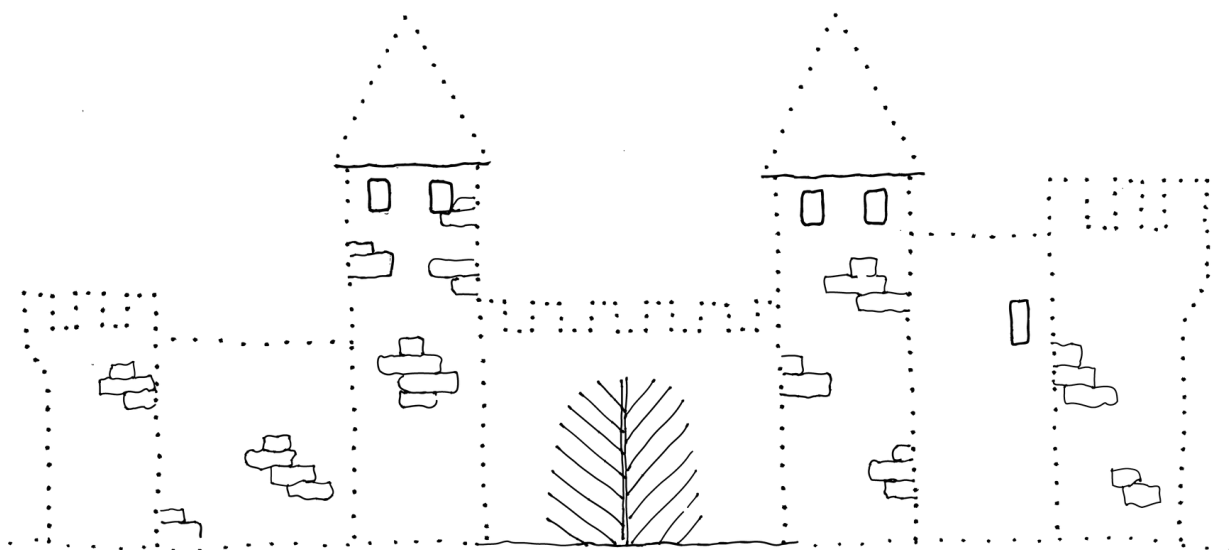

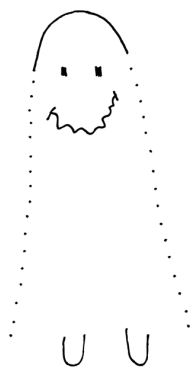

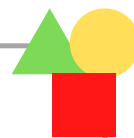

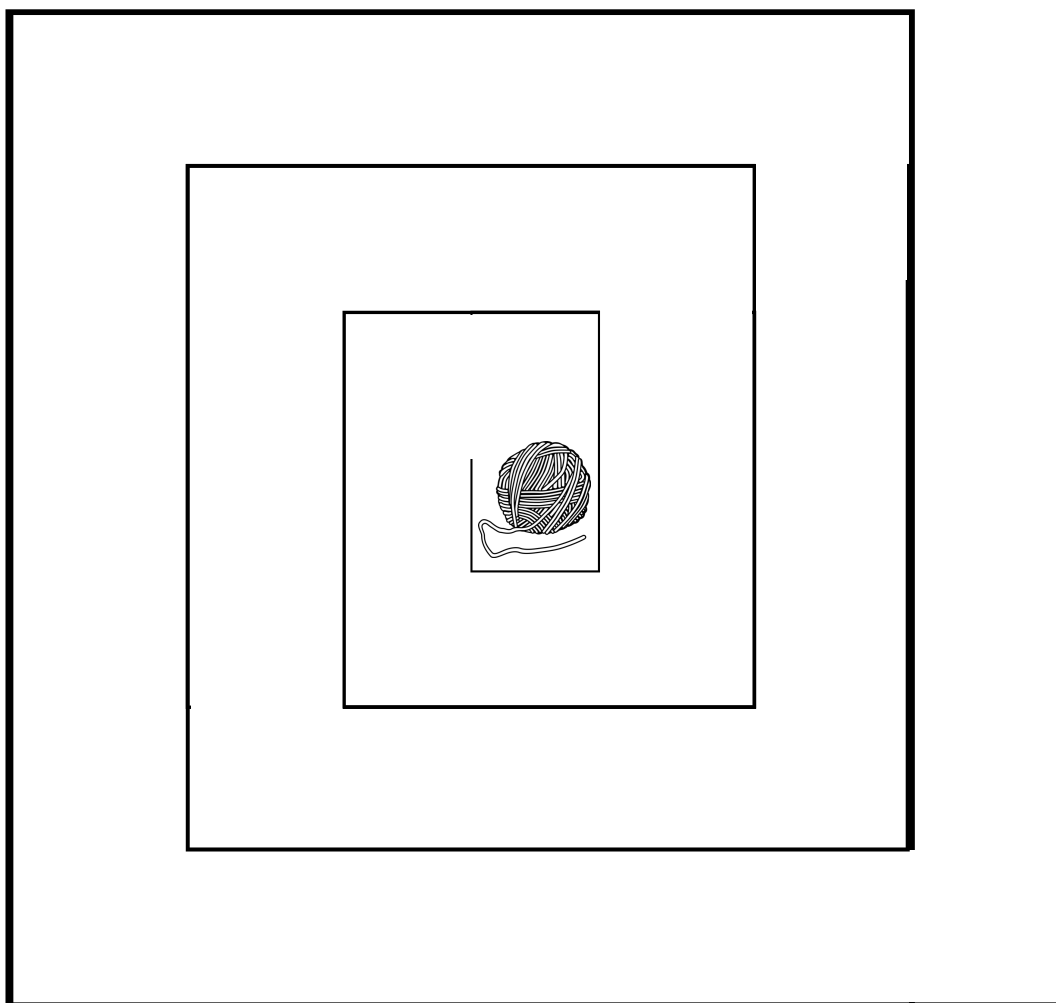

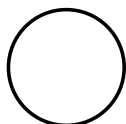

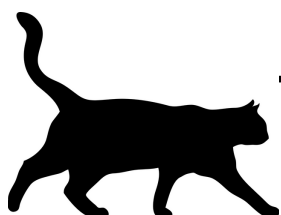

Říká se, že na hradě občas straší bílá paní,
duch nebo bezhlavý rytíř. Dokresli celý
obrázek a uvidíš, že bude vypadat veseleji.

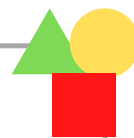

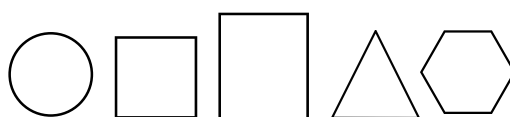

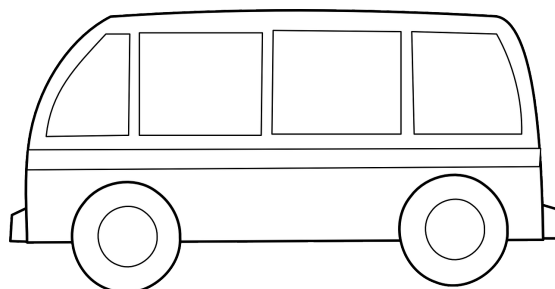

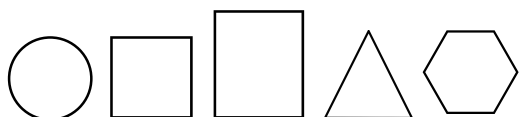

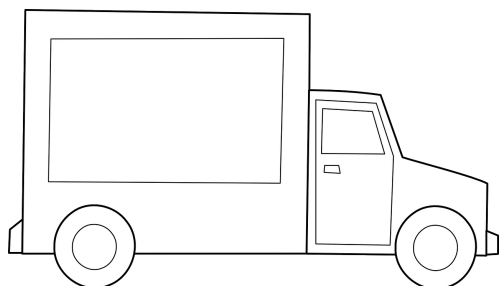

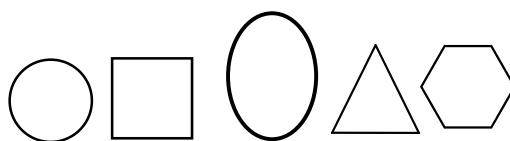

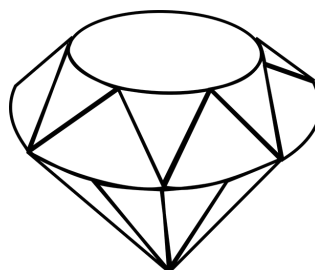

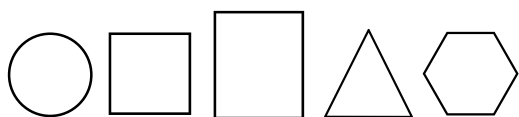

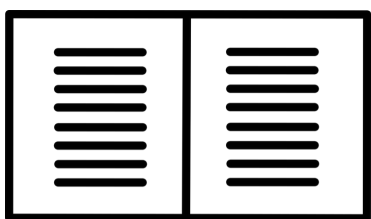

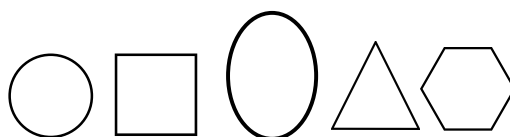

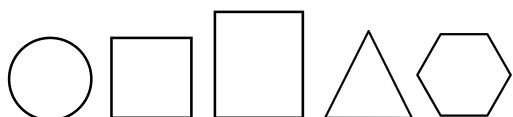

Kočka koule klubíčko, pomůžeš jí maličko?

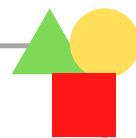

Kresli kruhy za sebou, do cíle tě zavedou.

V každém obrázku se ukrývá nějaký tvar.
Najdeš ho a vybarvíš? Může jich být víc.

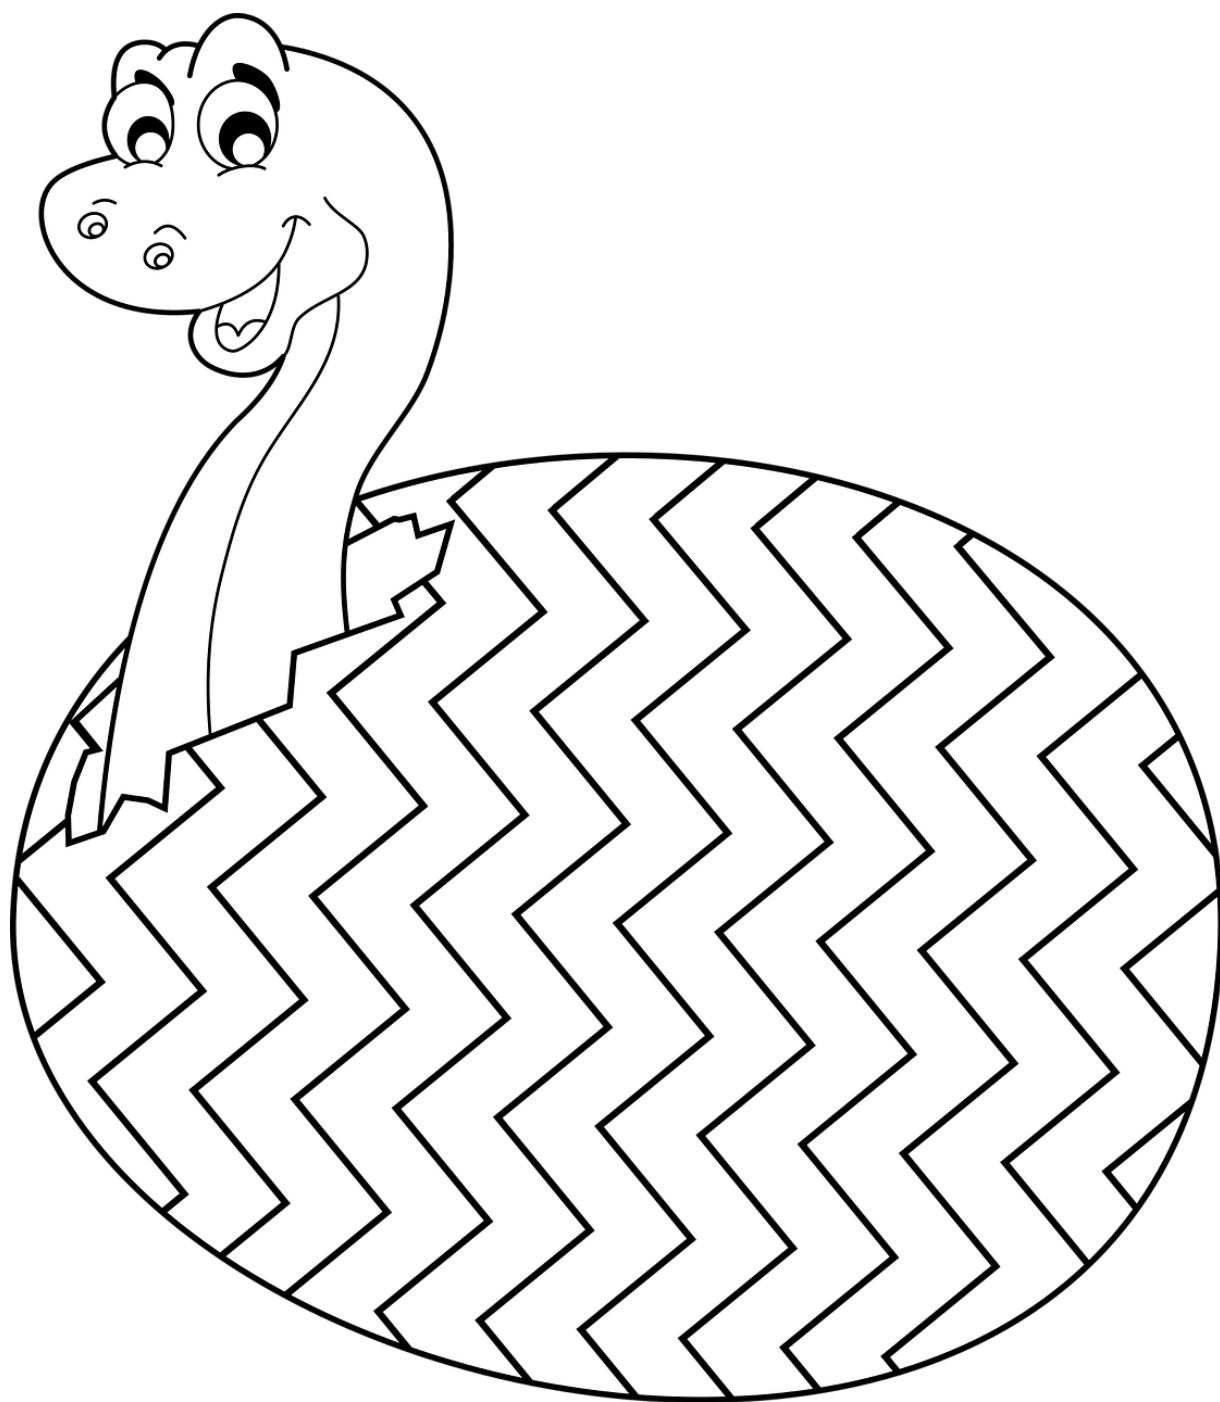

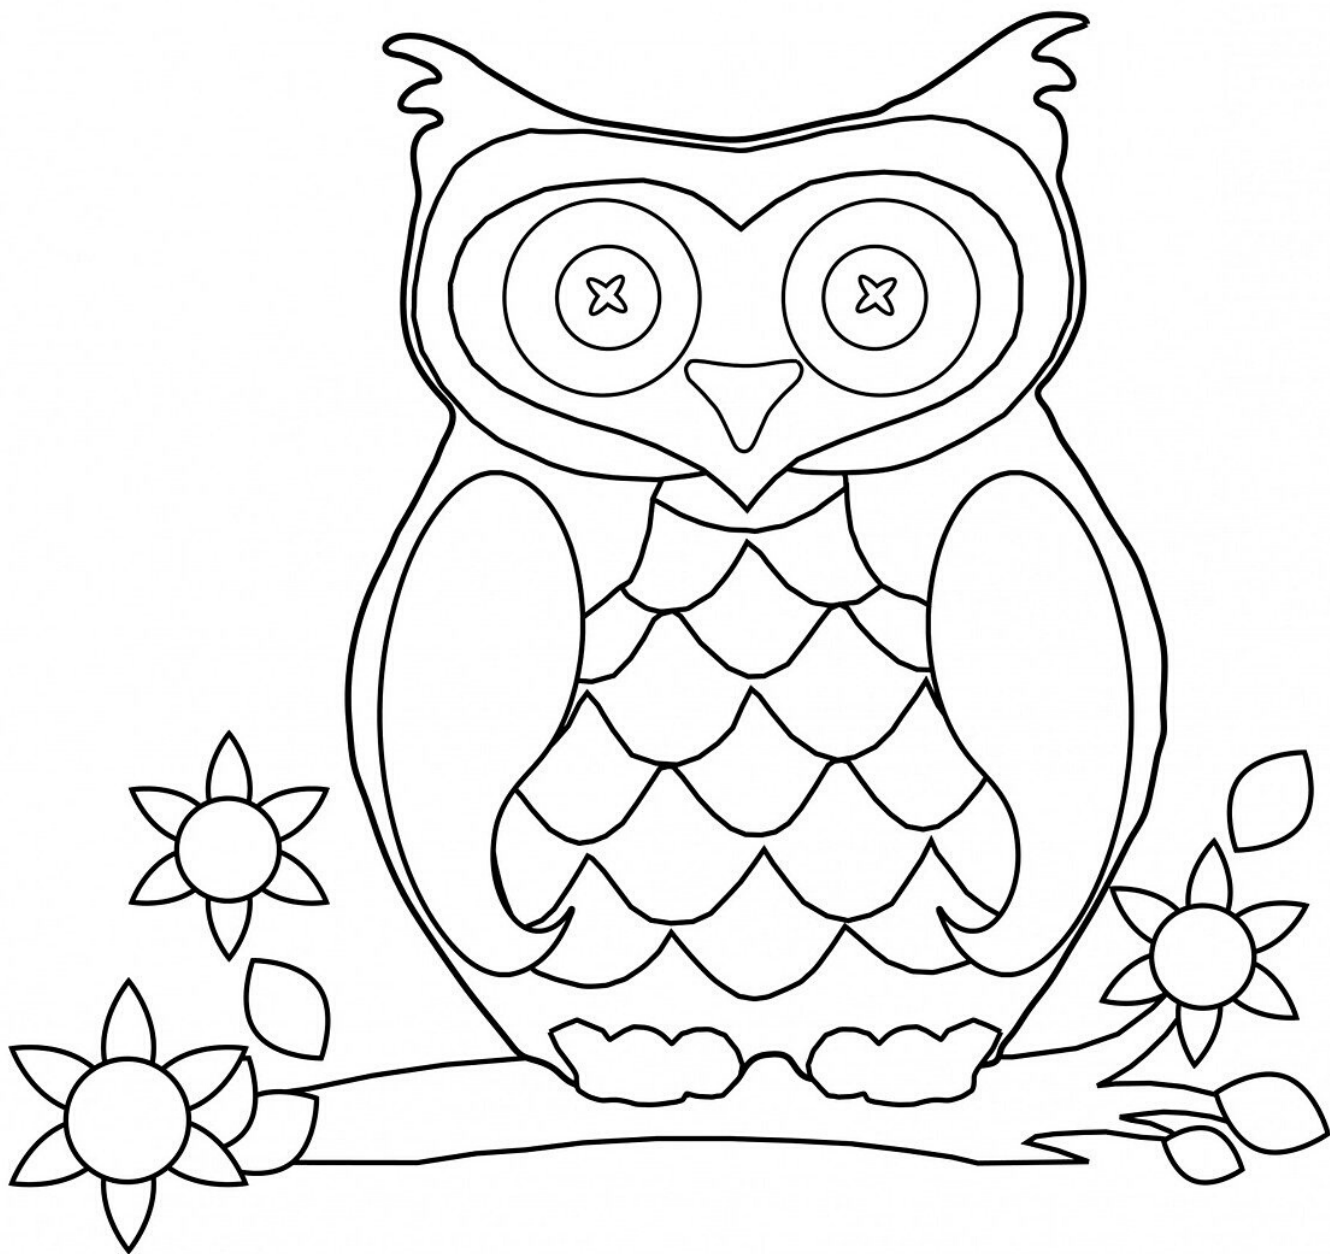

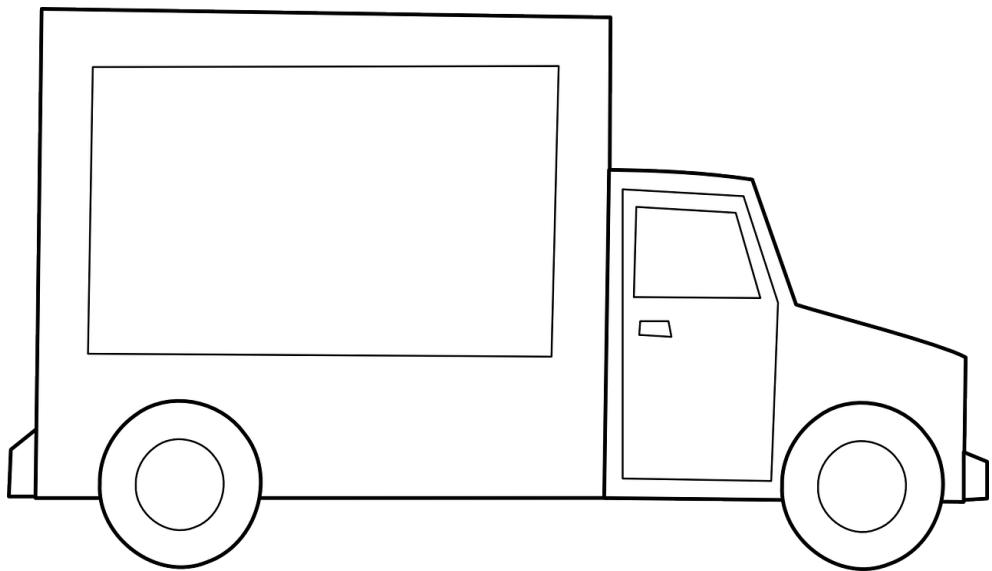

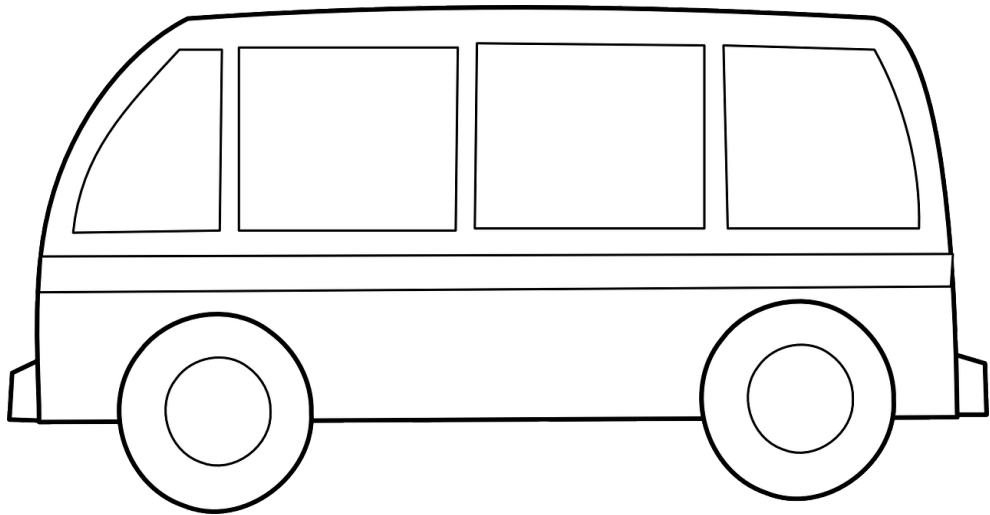

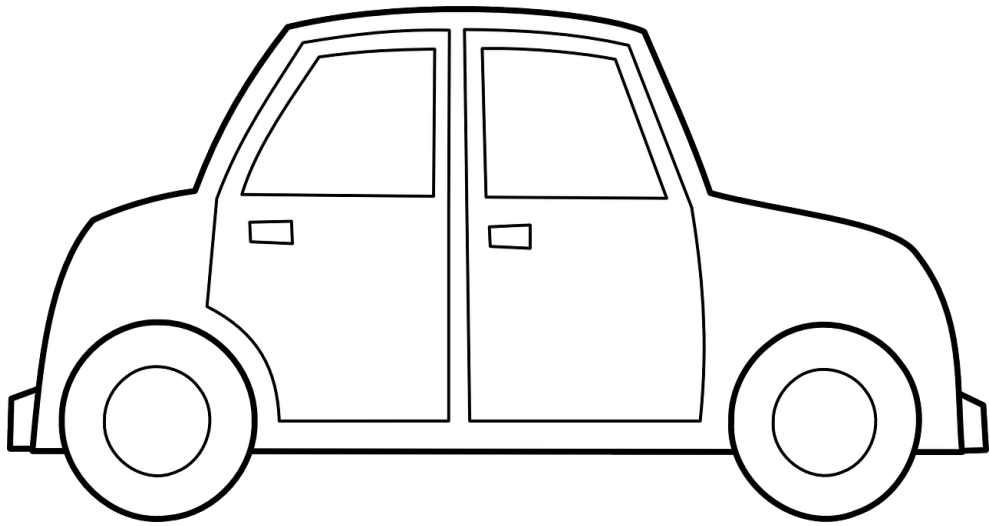

Anička ráda střídá svoje šaty. Někdy nosí šaty s puntíky, jindy se srdíčky anebo s hvězdičkami. Domaluj různé tvary na šaty a vybarvi je.
